

Protecting Digital Innovation: Emerging Fraud and Attack Vectors

13 January 2020 By: Krista Tedder

This original report, sponsored by Kount, provides insights and education to retailers and merchants to demonstrate how digital transformation also brings about more complex fraud scenarios. While improving the user experience, it is critical that vulnerabilities are identified and mitigated.

This research report was independently produced by Javelin Strategy & Research. Javelin Strategy & Research maintains complete independence in its data collection, findings, and analysis.
