

SolarWinds Shines Light on Emerging APT Risks

10 March 2021 By: Alexander Franks

The recovery process from December's SolarWinds attack is just beginning. Financial institutions got off easy this time, but now must take immediate action to mitigate insecurity from this attack and strengthen their security posture in anticipation of future attacks.

Companies Mentioned: Cybersecurity Infrastructure Security Agency (CISA), FireEye, JetBrains, SolarWinds, Microsoft, The New York Times, the U.S.
